SpeedCheck® Manager

Device Programming and Scheduling Software

carmanah®

The SpeedCheck Manager software allows you to easily set up, program and schedule your SpeedCheck radar speed signs.

- ✔ Program the display from up to **50 ft away** with Bluetooth® wireless connection using our high-powered USB laptop dongle
- ✔ Streamlined interface and display settings let you program each sign in around **five minutes**
- ✔ **Data Logger**: Collect and download vehicle speed data for use in the Traffic Analyzer software
- ✔ **Scheduler**: Set up and manage unlimited operating schedules with a 2-year exception list
- \+ **Inputs/Outputs (optional)**: Configure external devices such as beacons and strobes, or allow external devices to manage display operation

INCLUDED WITH EVERY SPEEDCHECK SIGN
SpeedCheck Manager PC software for setup and programming, including calendar scheduling
On-board data logger for collecting vehicle speed data, date and time
Traffic Analyzer PC software for data visualization, analysis and reporting
USB Bluetooth dongle shipped with every order

COMMUNICATION OPTIONS
Local Bluetooth wireless
Direct serial (cable)*
Remote communication available: please contact Carmanah for options

* Only compatible with SPEEDCHECK-15/18/AS/VS models.

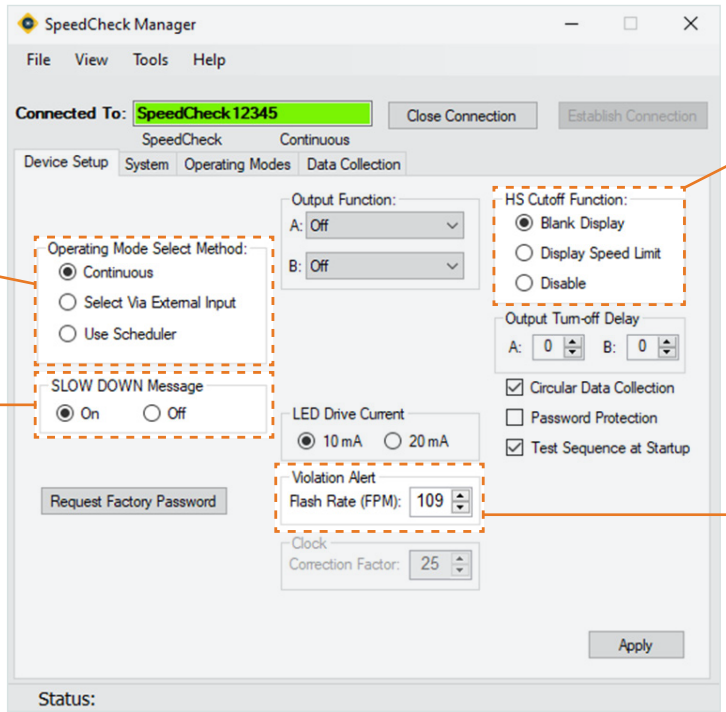
COMPATIBLE WITH
SPEEDCHECK-12/15/18
SPEEDCHECK-AS
SPEEDCHECK-VS

SYSTEM REQUIREMENTS
Windows 7** or 10 (32- or 64-bit) laptop/desktop computer ** A Bluetooth dongle may be required for laptops running Windows 7 and for desktop computers.

PC SOFTWARE: QUICK VIEW

SIGN OPERATION
Run SpeedCheck continuously, from an external device, or using the Scheduler for calendar operation.

SLOW DOWN MESSAGE
Select whether the optional "SLOW DOWN" message will be displayed.



HIGH-SPEED CUTOFF
Choose what happens to the display when drivers reach excessive speeds: blanks out, flashes the speed limit, or disables the function and continues to flash a driver's speed.

VIOLATION ALERT FLASHING SPEED
Customize the digit flash rate when drivers meet or exceed user-defined speed thresholds.

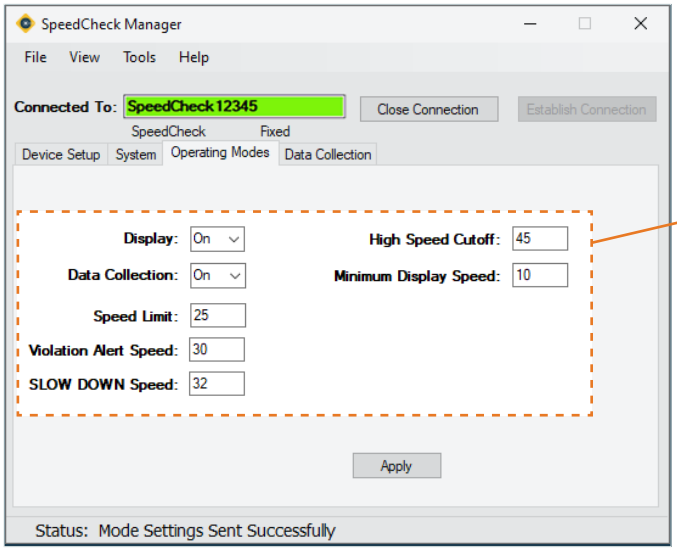
1 STANDARD OPERATION

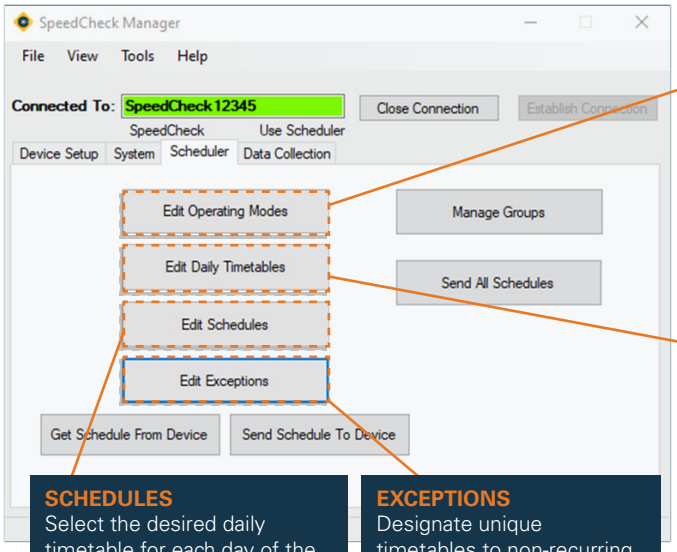
All settings for 24/7 operation or as a road speed data collector in stealth mode. Profiles are easily modified in the field and can be saved and assigned to all other signs on site.



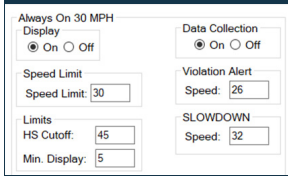
OPERATING MODES
Configure the display's speed parameters: set the road's speed limit, the speeds that trigger the digits to flash and display the optional "SLOW DOWN" message, and the minimum and maximum display speeds.

2 SCHEDULER OPERATION

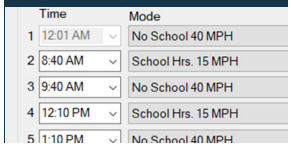
Program and manage calendar schedules for multiple SpeedCheck signs, including simple on/off functions, data collection times and operation of external devices like flashing beacons and cameras. Assign schedules to multiple signs.



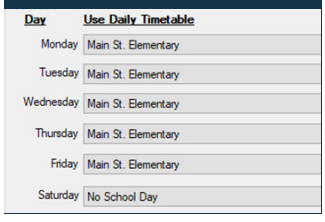
OPERATING MODES
Program speed thresholds, display settings, and external outputs.



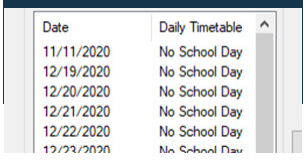
DAILY TIMETABLES
Create timetables by assigning user-generated operating modes to the desired time periods when they need to be in effect (up to 16 events per day).



SCHEDULES
Select the desired daily timetable for each day of the week.



EXCEPTIONS
Designate unique timetables to non-recurring event days—such as holidays or special events—up to two years in advance.



3 REMOTE OPERATION

See our StreetHub model and Glance™ software option.

4 iOS®/ANDROID™ MOBILE APP

Available for the SPEEDCHECK-12 model.
