

The SpeedCheck Scheduler is an add-on to the SpeedCheck Manager software that allows you to program and manage schedules of multiple SpeedCheck radar signs, from simple on/off functions and data collection times to the operation of external devices like flashing beacons and cameras. This easy-to-use scheduler lets you set up to **16 unique events per day** over two years.

Tailor the SpeedCheck radar sign operation for your particular application, such as a school zone, residential area, peak traffic periods, and more.

- ✓ Schedule unique daily timetables for each day of the week
- ✓ Save and assign schedules to multiple signs either through Bluetooth® wireless technology or a remote internet connection

SOFTWARE AT A GLANCE

OPERATING MODES

Program speed thresholds, display settings, and external outputs.

20 MPH
Display
 On Off

Speed Limit
Speed Limit: 20

Limits
HS Cutoff: 30
Min. Display: 15

Output Mode
A: ON AT MPH/KPH ON OFF
B: ON AT MPH/KPH ON OFF

Data Collection
 On Off

Violation Alert
Speed: 21

SLOWDOWN
Speed: 25

DAILY TIMETABLES

Create timetables by assigning user-generated operating modes to the desired time periods when they need to be in effect.

School days 20-35

Time	Mode
1 12:01 AM	All Off
2 7:00 AM	20 MPH
3 8:00 AM	35 MPH
4 Noon	20 MPH
5 12:30 PM	35 MPH
6 2:30 PM	20 MPH
7 3:30 PM	35 MPH
8 9:00 PM	All Off
9 Midnight	All Off

SCHEDULES

Select the desired daily timetable for each day of the week.

Schedule Name: Assemble Daily Timetables into weekly S... with up to two years' worth of Exception... holidays and special events.

Schedule

Day	Use Daily Timetable
Monday	All Off
Tuesday	All Off
Wednesday	6:45-7:45, 2:15-3, 15 7-8, 2-3, 15 7-8, 2-3, 30 7-8, 2-3, 35
Thursday	7-8, 2-3, 40 7-8, 2-3, 45
Friday	ER 6:45, 11:45-12:30, 15 ER 7-8, 11:45-12:30, 15 ER 7-8, 11:45-12:30, 30
Saturday	ER 7-8, 11:45-12:30, 35 ER 7-8, 11:45-12:30, 40

EXCEPTIONS

Designate unique timetables to non-recurring event days—such as holidays or special events—up to two years in advance.
