

SPEEDCHECK-12-HUB

StreetHub™ Radar Speed Sign with Remote Connectivity Data Sheet

Affordable radar speed sign system packed with premium features at no additional cost:

- ✓ Rapid-flashing strobe + stealth mode
- ✓ Mobile app for iOS® and Android™
- ✓ On-board diagnostic status indicators

Built-in wireless connectivity allows for remote, two-way communication:

- ✓ Includes monitoring unit upgrades and over-the-air software and security updates
- ✓ Glance™ cloud-based desktop/mobile software for programming, scheduling and system monitoring
- ✓ Backup battery ensures uninterrupted data collection
- ✓ Extended battery warranty matched to connectivity and support plan
- ✓ Out-of-the-box connectivity within minutes

SPEEDCHECK-12-HUB
12-inch digits for speeds less than 45 mph (70 km/h)

Fully Compliant, Ultra-clear Display

Compliant to MUTCD standards for legibility, including LED color, character and letter height. The bright LED display uses 12-inch digits against a background designed for high-contrast visibility that prevents “88” ghosting—ensuring readability in all weather and lighting conditions. The unique safety mask limits the viewing angle to prevent drivers from watching the display as they pass.

Long-lasting, Reliable Operation

The LED display is housed within a durable, weatherproof aluminum unit and is shielded with a tough polycarbonate window for added vandalism protection. Every solar-powered model is solar-sized by location to ensure year-after-year operation. Carmanah includes a Solar Power Report to prove sustainability over a 12-month period.

Easy Installation and Connectivity

The SpeedCheck® LED display's modular, lightweight design and built-in handle allows a single person to install on a pole or flat surface. The system comes factory prewired and pretested for remote communication—enabling cloud-based access within minutes. Carmanah's comprehensive support system includes product support technologists and our 24/7 on-demand [Product Support Center](#).

LED DISPLAY

LED Display and Strobe	Meets MUTCD legibility standards for character height and LED color for roadways with speed limits under 45 mph
	Seven-segment digit design using 224 amber LEDs
	LEDs automatically dim during nighttime operation, minimizing light bounce into neighboring windows
	Includes rapid-flashing strobe with white LEDs at the center of the display (with ON/OFF setting)
Radar	Includes stealth mode for data collection
	Detection range up to 800 ft; extended range option available
Construction	Single-direction, K Band Doppler radar (+/- 1 mph) with 12° radar beam width
	Weatherproof, gasketed enclosure with vents for ambient air transfer
	Corrosion-resistant aluminum chassis with stainless steel hardware
Weight	3/16\" polycarbonate window protects digital display from weather and vandalism
	Keyed access prevents sign removal and battery theft
Weight	15 lbs (6.8 kg) without batteries

POWER OPTIONS

Battery	Includes external battery charger
	Maintenance-free, non-proprietary AGM batteries offer the widest temperature range and longest life
	Batteries can be easily replaced at low cost
Solar	12 VDC operation, solar sized to specific geographic location
	Includes 12-month Solar Power Report to ensure system reliability
AC	System designed for 5+ year battery life
	100-240 VAC in standard configurations

INCLUDED WITH EVERY SIGN

Software and Mobile App	Bluetooth SpeedCheck Manager mobile app and PC software for setup and programming, including calendar scheduling and data collection
	 
Warranty	Traffic Analyzer software for data visualization and reporting
	3-year limited warranty on LED display
Support	Battery warranty matches selected connectivity and support plan
	Carmanah's North American product support technologists available for solution building, solar sizing and troubleshooting
Support	24/7 access to Carmanah's online Product Support Center database

"YOUR SPEED" STATIC SIGN

Sign	Meets MUTCD legibility standards for color, character and height
Sheeting	3M High Intensity Prismatic or Diamond Grade retroreflective sheeting and components
Color	Available in yellow, fluorescent yellow/green, white, and orange

LED DISPLAY MOUNTS

Standard Banding/ Flat Surface	Through Bolt (2\" - 2.5\" Square Poles)	Through Bolt (2.38\" - 2.88\" & 4.5\" Diameter Round Poles)	Band Clamps (2.38\" - 4.75\" & 5.5 - 8.25\" Diameter Round Poles)
-----------------------------------	---	--	--

SOLAR PANEL MOUNTS

Top of Pole Mount

Side of Pole Mount

PANELS	LENGTH	WIDTH
30 W	21.5\" (545 mm)	15.7\" (400 mm)
50 W	26.3\" (668 mm)	21.2\" (538 mm)

CELLULAR CONNECTIVITY AND SOFTWARE

Monitoring Unit	Applied Information AI-500-070B (AI-500-071 in Florida) monitoring unit includes cellular modem with GPS, fully integrated and configured from the factory
	LTE wireless broadband network Hardware is upgradeable if service provider changes network requirements
	Prewired inputs and outputs to monitor radar speed sign, solar panel, battery, AC power, and system status
	Unit connects to the network every 15 minutes to ensure uptime
	Over-the-air software and security updates
	Non-volatile memory storage and battery backup in case of system power loss
	Meets NEMA TS 8 requirements for Cyber and Physical Security for Intelligent Transportation Systems
Scheduling and Monitoring Platform	8 x 5 x 2 in (203 x 127 x 51 mm)
	Glance™ cloud-based platform for remote radar speed sign scheduling and monitoring Compatible with desktop and mobile devices
	Programmable speed settings including speed limit, digit flashing speeds and more
	Easy-to-use calendar with up to 20 unique schedules and unlimited holidays, program delays and overrides
	Stores detailed traffic speed and system data including 85th percentile speeds, battery status, solar panel voltage, AC power status and more
	Configurable smart alerts through email and/or text of system issues
	Custom reports available
Connectivity and Support	1/2/3/4/5-year connectivity and support plans available
