

# carmanah® MX CHEVRON MODULE MX Series

## INSTALL GUIDE

### LEVEL 3

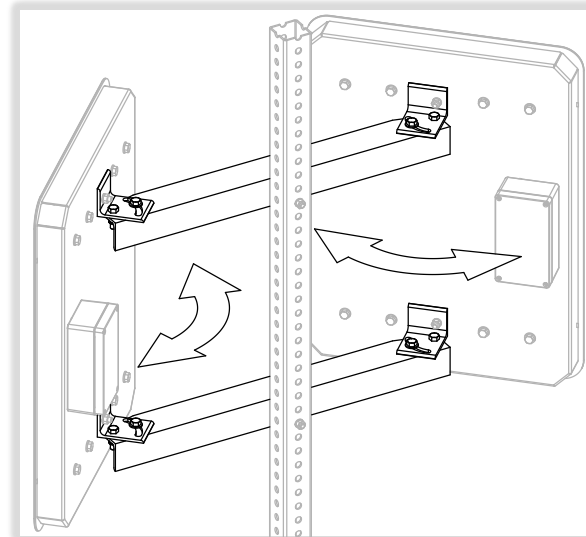

#### ① Chevron sign module package contents

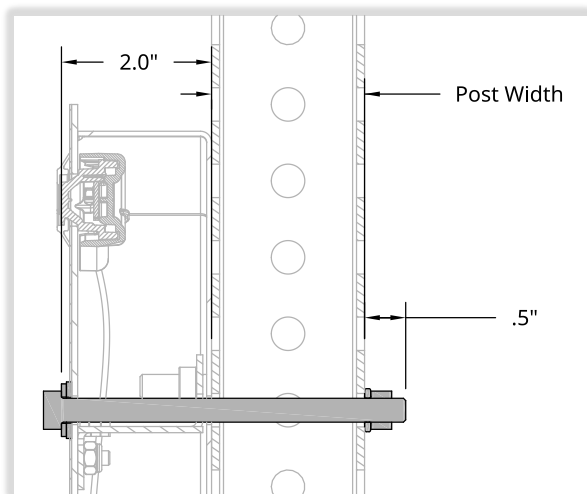

#### NOTE

Chevron sign is reversible and can be installed pointing either right or left.

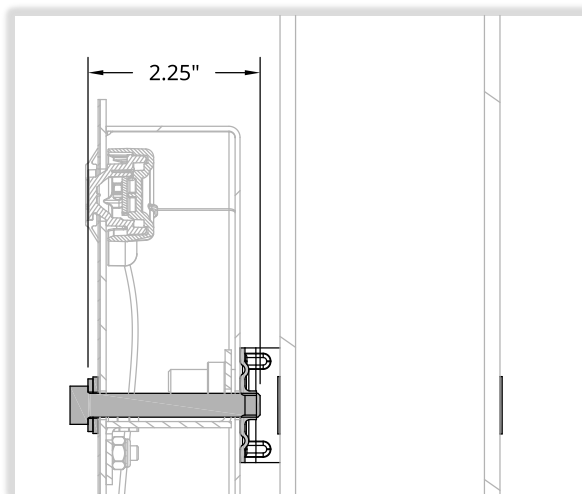

#### ②a. Dual adjustable mount (see **LEVEL 4** Chevron Sign Dual Mount Kit Install Guide)

#### ②b. Through-bolting (5/16 inch bolt kits available)

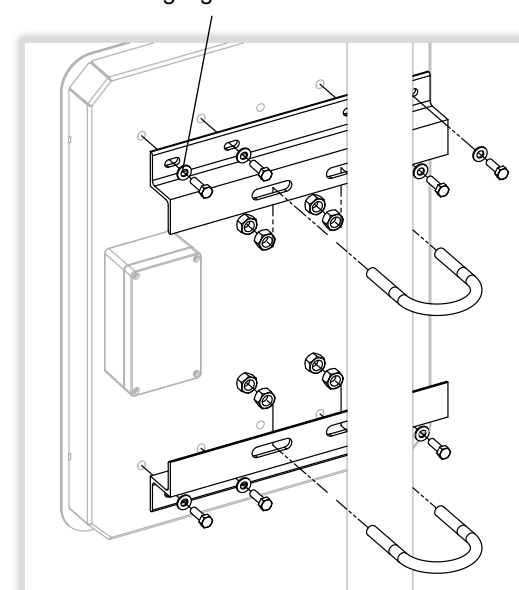

#### ②c. Banding (bracket kit available)

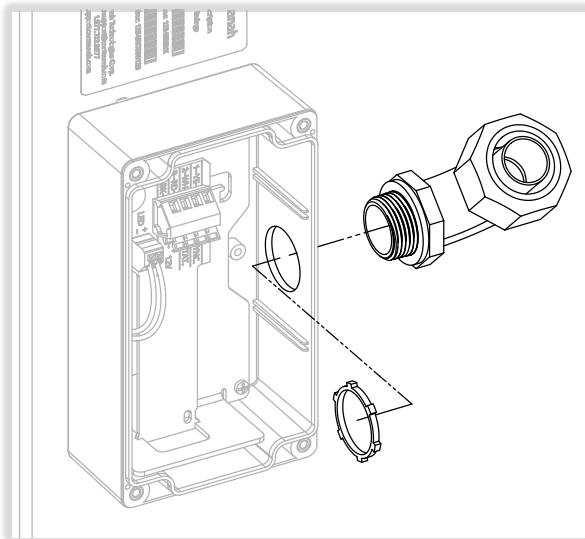

#### ②d. Z-bars (see **LEVEL 4** LED Sign Z-Bar Kit Install Guide)

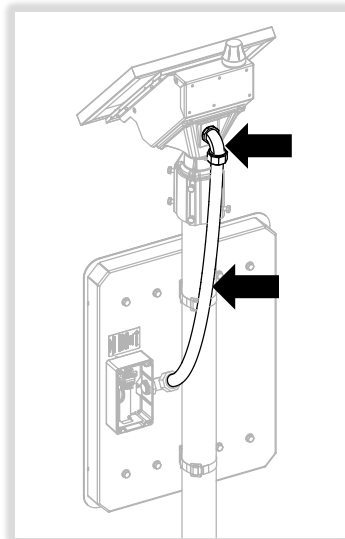

Install Z-bars using existing sign hardware

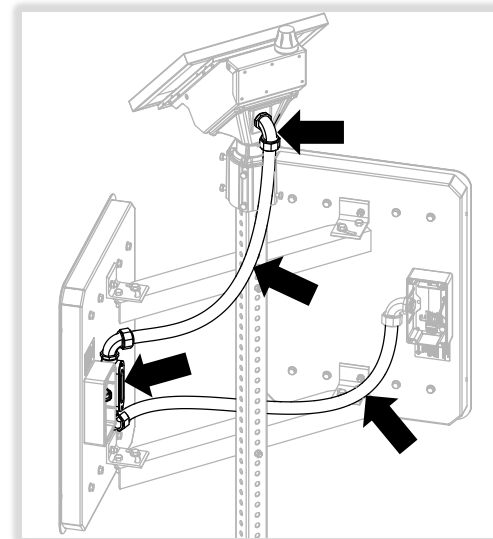

③ Install conduit fitting (single chevron sign)

④a. Single chevron sign: install conduit fitting onto power module and route conduit. See power module install guide for details.

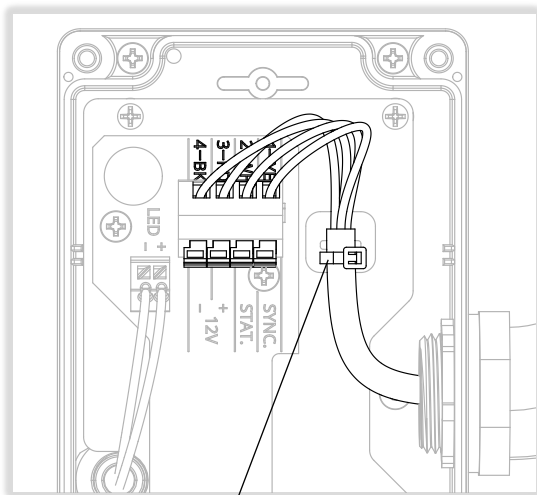

④b. Dual chevron signs with adjustable mount kit: install conduit fittings and conduit, see power module and dual mount kit install guides for details.

⑤ Wire power module to chevron sign

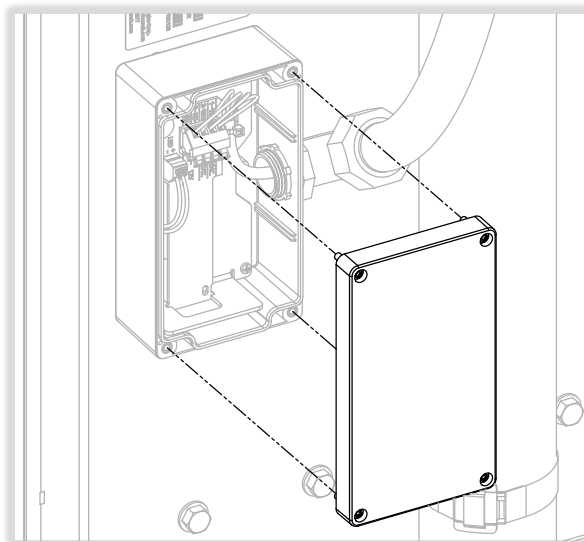

**Ensure all four wires are terminated**

Secure cable jacket with cable tie as shown

⑥ Install cover(s)

**TO COMPLETE SETUP:** Use MX Field App to program/link modules and change default settings. **Chevrons have sequential or synchronized flash patterns that requires programming.** Download: [carmanah.com/app](http://carmanah.com/app)

**FOR REMOTE ACCESS:** Log into MX Cloud: [MXcloud.live](http://MXcloud.live)

**Maintenance**

Periodically clean the surface of the product with water and a soft cloth. A mild non-abrasive cleanser can be used for more stubborn residue. Clean more frequently during drier months. Check for any damaged, missing or broken hardware.

**Warranty**

This product is covered by the Carmanah warranty. Failure to comply with the use, storage, maintenance or installation instructions detailed in the supplied documentation could void the warranty.
