MX Cloud™ Subscriptions

We include three years of connectivity free,

and offer affordable subscription tiers so you

only pay for the features you need.

MX Lite 3 years free

Get actionable alerts and a network-wide view of your systems.

MX Plus

Make changes to your system settings and access data from anywhere.

MX Pro

Create, edit, and set schedules in bulk and onthe-fly.

only pay for the reatures you need.	your systems.	anywhere.	the-fly.
Subscription Features			
Out-of-the-box connectivity			
As soon as an MX system receives power, it connects both locally to the MX Field App and remotely to the MX Cloud-no extra steps or equipment required.	\otimes	\bigcirc	igoremsize
MX Cloud Access your MX systems remotely from any web browser. Locate systems on a Google Map, view status alerts, manage local access, and more.	Ø	\bigcirc	Ø
System alerts MX systems issue email and text alerts the minute there's an issue to reduce downtime and improve safety.	\otimes	\bigcirc	\otimes
Asset management Log into MX Cloud to review event logs, monitor battery health, and access detailed module information and warranty dates.	\otimes	\bigcirc	\otimes
System health and usage data Get insights into system health as well as usage data like trigger counts (e.g. battery voltage and pedestrian push button activations).	\otimes	\bigcirc	\otimes
User management MX Cloud comes with four distinct user roles allowing agencies to specify who can and can't access MX systems.	Ø	\bigcirc	Ø
Enhanced security MX Admins can restrict local user access to any or all MX systems with the click of a button.	Ø	⊘	Ø
Over-the-air updates Keep systems up-to-date with the latest firmware.	⊗	⊘	Ø
Knockdown alerts Get notified when an MX system is knocked down in the field.	-	⊘	Ø
Data charting Visualize MX system performance with a higher resolution of data points, graphically charted in a 180-day timeline.	-	\bigcirc	\otimes
Remote programming Push setting changes, like beacon flash duration and night dimming, from anywhere.	-	\bigcirc	\otimes
Remote scheduling Create, delete, and adjust system schedules in advance or on-the-fly-including in bulk—via MX Cloud.	-	-	Ø
5-year historical data Dig deeper into system performance and usage with five years of raw data that can be downloaded, shared, and analyzed.	-	-	Ø
